2. Event Coordinator is responsible for estimating number of participants and expenses associated with the event. To ensure that the event breaks even financially, the Coordinator is responsible for combining expected expense information along with approved subsidy to determine cost, if any, for each person to participate. Expenses incurred by the event coordinator prior to the event (gasoline for scouting trips, etc.) that are greater than \$25 and less than \$150 will be considered for reimbursement. Expenses incurred prior to the event that are greater than \$150 will require Executive Committee approval.
3. Event Coordinator(s) must fill out the Event Template form and submit it to the Board of Directors for approval.
4. Event Coordinator(s) shall be responsible for making arrangements to secure the location(s), supplies and logistics for the event, including details relating to approvals, timing and costs.
5. Event Coordinator(s) shall determine the type of the event (MCVO or EOI). Event Coordinator can decide between these 3 classes, as follows:
 - 1) Viper Optional – i.e., Winter Party, Holiday Party, etc.
 - 2) Viper Strongly Encouraged
 - 3) Viper Mandatory – i.e., Veterans Day Parade, etc.

Unless otherwise noted:

MCVO members are strongly encouraged to bring their Vipers to MCVO events or Events of Interest when possible. It is recognized that situations due to inclement weather, vehicle maintenance, etc. may necessitate attendance in a non-Viper vehicle. Please be aware that in those situations club members will be asked to park their non-Viper vehicles in a separate area and be positioned at the rear of a Viper caravan. Use of non-Viper vehicles must be approved by the event coordinator.

6. Event Coordinator(s) shall supply the necessary information (date, time, location, cost and related details) to the Technology Director by at least five (5) weeks before the event. The Technology Director will then create and distribute e-mail, web and Facebook announcements for the event.

7. A Google Doc will be established by the Technology Director for each event after the e-mail, web and Facebook announcements are sent out. Event Coordinator(s) are expected to monitor the Google Doc for progress on member sign-ups and any necessary adjustments related to event promotion.
8. Event Coordinator(s) shall be available for membership questions related to their event.
9. Event Coordinator(s) are expected to attend their event, pay the required attendance fee and coordinate activities related to the event. If other members are necessary to facilitate the event, the Event Coordinator(s) are responsible for arranging their participation.
10. Event Coordinator(s) are responsible for accurate documentation of the members who attended their event. That documentation shall be recorded on the Google Doc for that event.
11. Event Coordinator(s) are responsible for writing a newsletter article summarizing their event.
12. In any situation where the Event Coordinator(s) are unable to perform any of their responsibilities above, it shall be the Event Coordinator(s)' duty to promptly find suitable alternates to fill their role.
